

90 ° RECTANGULAR CLAMP

FEATURES:

EXCELLENT CREATED CORNERS: Maintains aligned joints and corners. Quickly and easily holds boards and frames together at a 90 ° angle.

EASY SINGLE HAND OPERATION: The rubberized single handle has a firm and non-slip finish. It makes it easier to work with one hand.

CLAMPING POWER: Can hold objects firmly and securely in place.

DURABLE AND LIGHT WEIGHT: Made of strong and durable ABS, but light enough to hold comfortably in your hand for extended periods of time.

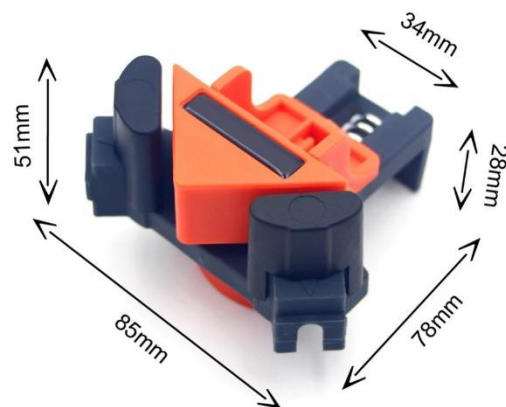

FLEXIBLE AND ACCURATE: With its sturdy spring, it automatically adjusts to work at different panel thicknesses.

MULTIPLE USE: Best for wooden projects, cabinet connections, photo frame reinforcement.

HIGH QUALITY MATERIALS: Solid frame that can adjust retention without worrying about rusting.

SPECIFICATIONS:
